EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Leon Rosen on 8/26/05. The main reason for this examiner amendment is to overcome newly found art.

The application has been amended as follows: **Cancel claims 1-2 and, 15.**

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest alone or in combination, the combination of elements including the beam middle acute angling with extension beyond the front face of the frame in claim 10. New claim 12 reasons for allowance were give in the office action dated 4/28/05. The prior art of Kawamoto discusses some claim elements except for an approximately 20-degree angling of the contact beam middle with extension beyond the frame face.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled
“Comments on Statement of Reasons for Allowance.”
